Office 310-516-9911

IMPORTANT NEWS

Date: March 31, 2010

Dear Pacific Molded Technology customer,

We are pleased to inform you that Parker has successfully secured a **new supplier** for you.

Due to Parker's acquisition of Pacific Molded Technologies or PMT (also known as Aqua Pro Inc. or Village Marine Tec./VMT) and a subsequent restructuring of the operation Parker will **no longer be able to supply** a component or components that you purchased from PMT. **The parts you purchased may now be available from a company who has taken over the operation of the PMT facility.**

Please contact Mr. Pino Pathak at FTG, Inc.12345 Santa Fe Springs, CA at (562) 777-1107 or email to pino@ftginc.com

This web site can offer you more information www.pacific-molded.com

We are pleased to recommend FTG as your new supplier as they been a valued Parker Racor supplier partner for many decades and are retaining key PMT employees. Of course we will be providing Pino and his team with all the support necessary to facilitate a smooth transition of this business.

Thank you,
PARKER HANNIFIN CORPORATION
RACOR DIVISION
