

OUR MISSION IS TO PROVIDE
STATE OF THE ART QUALITY PRODUCTS AND EXCELLENCE SERVICE.

We are a small, minority 8(a) manufacturer of custom air, fuel, and oil filters. Here, small means more personalized service. We are known for the high quality of our work and the efficiency with which we carry out our assignments. We have the experience and reputation you can depend on to ship quality products to meet your deadlines. FTG has a 70,000 square foot plant in Modesto, California and is ISO-9001:2000 certified. We are committed to providing value.

Our success is founded on our philosophy that excellent customer service is achieved through good communication and interaction between customers and employees. This is a vital and synergistic relationship.

We will not only meet your expectations. We will exceed them. You can rely on FTG for responsiveness, quality, and service. We are listening. How may we help you? Give us a call today.

Thank you and welcome to our company website.

FTG “SMART” APPROACH

Are you having trouble with low volume orders with immediate ship dates for your best customers? Most companies do. Would correcting this customer service problem help improve your customer’s image of you and help you get additional business? Would solving these problems help bring harmony, integrity, synergy, and innovations to your engineering, production, purchasing, and sales departments?

Do you feel like your place in the market is being turned upside down? Are you too busy putting out fires instead of contributing to the next stage of corporate growth? Is your company bringing new ideas to the market place in a timely manner or do small projects drag on for months while engineering designs and develops prototypes to submit to customers? Do you feel like you are losing market share? Does a shortage of human resources put rush projects into slow motion? FTG can be a powerful resource.

WE USE A “SMART” MARKETING PLAN TO ACHIEVE YOUR OBJECTIVES.

SPECIFIC PROJECT

MEASUREABLE QUALITY

ATTAINABLE GOALS

REALISTIC APPROACH

TIMELY SHIPMENTS

Would introducing new products to the marketplace more quickly give your company a significant advantage? FTG design lab offers 3d modeling to minimize time schedules. We can design prototype filters, design and build required tooling, manufacture filters, and handle drop shipments. We also stock fittings. We are your one stop supplier for filter needs. We specialize in private labeling. FTG is a highly knowledgeable organization with over 70 years experience in the filter industry. Why not put our filter expertise to work for your design and manufacturing needs?

Would additional products in your catalog increase your sales? Usually, it will. Are you having trouble increasing catalog products because manufacturing cannot meet production schedules due to long set up times for small volume runs? Feel free to use FTG as a valuable resource.

FTG can help support your engineering, manufacturing, and sales groups. Designing, manufacturing, and shipping a new product usually takes FTG less than three months. Why not use FTG as a resource?

We can give an objective appraisal of your project. A new pair of eyes to recognize problems that might impact your project down stream: we develop a strategic alliance with our customers to help catch any weaknesses early in the planning stage. We keep all customer information strictly confidential. We can help provide an organization with new energy and enthusiasm that inspires more creativity. FTG has the technical skills, understanding, and experience along with a conscientious attitude to help you reach your goals. A goal is a dream with a deadline. Let us help you save time so you can meet that deadline.

Our manufacturing flexibility is capable of producing pleats depths from 1/4" to 4" and lengths of 40".we can design and manufacture washable air, fuel, and oil filters in a myriad of shapes and sizes. We are positive we can help you fulfill your needs.

We are project oriented, not sales driven. You expect extra effort and we deliver it.

Take the initiative and take FTG's proven products and services for a "test drive" today.

Eliminating the urgency on small, time consuming projects can free up valuable time and open doors to other profitable opportunities.

We view an order placed with us as our opportunity to create customer satisfaction. Thus, customer trust and confidence develops into a long term customer relationship.

Sludge robs your engine of power, acceleration, and performance. Eliminate sludge with superior protection; get quality filter products from FTG today.

Would a west coast warehouse shorten delivery time and provide you with better customer service? With the price of gasoline on the rise, UPS and freight costs will continue to escalate. Are small quantities of mixed orders costing your shipping department optimum efficiency?

We can provide a one stop shopping for customers by warehousing fittings for filter housings. We already provide this service to some well known filter companies.
